

**Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325**

## Product Description

Kids will have a blast as they climb, slide, and crawl around, navigating the Ann Arbor play system's many wonderful activities. With three separate slides spread throughout the structure, kids will always be within easy reach and most likely never have to wait for their turn. When entering the play structure, children will choose between an impressive variety of vertical climbers, as well as the simple and easy-to-use Transfer Station. The Pea Pod Climber and Disk Climber each have three plastic steps with high-traction surfaces that offer different climbing challenges, while the Vertical Ladder presents a more straightforward route up. The upper areas of the structure are connected to each other by a Curved Tube Bridge, which makes traversing from one side to the other an adventure every time. The rest of the structure is covered by small but important activity features, like the Single Drum and Bongos, the Ship's Wheel, and the Gear Panel.

## Product Specifications

**Model Number:** PKP112N

**Age Range:** 2-5 years **Child**

**Capacity:** 32-37

**Fall Height:** 36"

**Post Diameter:** 3.5-inch

**Product Type:** Quick Ship

**Safety Zone:** 25' 0" x 32' 11"

**✓ ADA Compliant**

**Elevated**

8 components

**Ground Level**

3 components
