

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

The Ditch Plains play structure is an awesome structure that offers children plenty of exciting ways to climb, play, and move around. The structure has three slides, including a pair of 5-foot straight slides as well as a smaller 3-foot turn slide, which provides an easier challenge for younger children. A unique Bones Bridge connects the two taller twin slides together. Kids can access the structure by using the vertical Snake Climber, plastic Arch Climber, or ADA-compliant Transfer Station. There is also a set of four Pebble Climbers, which can be used as stepping stones to reach the lower deck. Ditch Plains also contains an abundance of interesting activity panels. These include a Car Panel, where kids can pretend to drive around until they reach the Store Panel, which is a perfect setting for imaginary interactions and games with other kids.

The Ditch Plains play structure is built to last using durable powder-coated steel, PVC-coated steel decks, and roto-molded plastic. It's also built for safety: Ditch Plains is engineered to meet or exceed IPEMA, ASTM, and CPSC...

Product Specifications

Model Number: PKP010P

Age Range: 2-12 years **Child**

Capacity: 36-42

Fall Height: 60"

Post Diameter: 3.5-inch

Product Type: Quick Ship

Safety Zone: 34' 10" x 25' 6"

✓ **ADA Compliant**

Elevated

8 components

Ground Level
