Product Description

The Honolulu play system is a paradise of awesome slides and activities. This structure has virtually every type of slide that we have to offer for play systems, including a Wave Slide, Double Slide, Right Turn Slide, and Spiral Slide. These provide plenty of different styles and heights of slides, so that children can choose the one that is perfectly suited to their preferences (although they will want to try them all, of course!). Kids will love running around and exploring the whole structure as they go from one slide to the next. There are plenty of climbers for them to use, including a Pod Climber, Vertical Ladder, and a Sea Creature Climber, which give the Honolulu a pinch bit of island flair. There are tons of other great activities on the ground level as well, including the Curved Crawl Tube, Car Panel, and Bench Panel.
