Product Description

The Imperial Springs play structure will keep children entertained for hours with its vast variety of entertaining objects. There are two styles of overhead climbers, a simple Overhead Single Parallel Ladder and a more complicated Curved Overhead Swinging Rung Ladder. Both offer alternative ways to access the upper levels of the structure, as well as fun and exercise. Other routes to climb to the top include an accessible Transfer Station, simple Vertical Ladder, and an extra-tall Inverted Arch Climber. But the excitement of all these ways up doesn't even compare to all the fun ways to get back down. There are a total of four slides, including a Double Slide and 7' tall Wave Slide, as well as a classic Fireman Pole. On the ground floor, there is even a Single Drum, Rain Wheel, and Ship's Wheel built into the structure for additional outlets for kids to direct their imaginative and creative energies towards.
