**Product Description**

Set foot in a cove of enchantment with the Powells Bay playset. Children will delight at climbing atop the structure's 36-inch platform, accessible by pod climber or stairs. Once there, children can either zip down the Left Turn Slide or the Right Turn Slide to exit the play structure. A Ship's Wheel found on the ground level provides a fabulous creative, hands-on outlet and makes the Powells Bay structure ADA compliant. A charming Pyramid Roof covers the platform, providing shade and sun protection for children playing on hot and sunny days. A Transfer Station facilitates access to the main platform. And the structure is available in an array of color palettes to meet your specific playground's needs. The Powells Bay playset is compact and space-saving, making it a great addition to small playgrounds, daycare centers, and public green spaces.
