

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

The Single Station Rower with Back is designed for you to engage multiple muscle groups. It's an ideal piece of fitness equipment for a smooth, low-impact workout. It's a full-body workout machine that targets different muscle groups, such as arms, shoulders & back. The simple yet intuitive design of the Single Station Rower with Back makes it easy for anyone to start exercising. All you need to do is just sit down, grab the handles, and have at it. Its user-friendly design makes it beginner-friendly, so users of all fitness levels find it accessible. An attached seat back makes it extremely comfortable. Its design prevents injuries, and durable construction ensures it can withstand heavy & continual use. The compact design of this machine lets users place it in different locations, whether it's a park, a playground, or any outdoor fitness area. It's also suitable for different gym environments. It has an easily integrated rower that works with other pieces of gym equipment perfectly.
