

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

The Single Balance Board is a balancing challenge in a compact design. Teens, adults, and everyone in between will be lining up to give it a go to flex their balancing skills. The surface of the board is textured to provide traction for anyone taking on this challenge. The real highlight is the steel springs under the board that make it wobble under weight. To ensure these springs stand strong against the wear and tear of humans and the weather, heavy-duty commercial-grade steel is used in its construction. Unlike ordinary springs that lose their elasticity after a short period, these steel springs will stay bouncy for a long time no matter what size individuals are using it regularly. The Single Balance Board comes in a plethora of colors, so worry not, the color you've in mind is most likely available. Add it today and watch as it becomes a favorite stop for all ages looking to test their balance and have some good old outdoor fun.

Product Specifications

Price: \$1,448.⁰⁰

Model Number: PFT071

Age Range: 13 years +

Fall Height: 12"

Post Diameter: 3.5-inch

Product Type: Fitness Single
