

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

### Product Description

With outdoor fitness growing in popularity, it's about time you make your outdoor facility more inclusive. This Pull and Dip Station will do that for you. It will encourage more people with active lifestyles to come and try your recreational area. In this structure, individuals can do multiple exercises. They can perform pull-ups and chin-ups or work on building triceps. It is just the perfect equipment for building upper body strength. This would also let people build their chest, shoulder, and back muscles. Besides, it can be used by multiple individuals at once. Since the Pull and Dip Station has four separate stations, four people can work out on it at the same time. It is fantastic for those who need a workout buddy for an extra dose of motivation! This multi-station design also means that no one would have to wait for their turn in a queue for longer. This structure is built for outdoor use as it's constructed from high-quality, sturdy materials.
