

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

Chin-ups are an important part of many people's exercise routines. Sadly, chin-up bars are a rare occurrence in many outdoor recreational facilities. But you can now invest in these Inclined Quadruple Station Chin Up Bars to promote fitness. This Inclined Quadruple Station Chin Up Bars can be the perfect addition to your existing equipment. It is designed to help individuals build their upper arm strength. Visitors who wish to work on their biceps and shoulders will appreciate this new addition to your outdoor gym. What makes this structure so special is that it has an adjustable height. This means users can tailor their workout sessions according to their requirements. It is perfect for teens and adults. As the Inclined Quadruple Station Chin Up Bars is specifically made for outdoor use, it has galvanized steel bars and rust-resistant powder coating. This ensures the structure is durable and doesn't give in to harsh use and outdoor exposure.
