

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

The Pull Up Climbing Ladder combines fun with a workout that young athletes can really benefit from. It has a safe and inclusive design that's ideal for kids of all heights and skill levels. The nine rungs are a means for reaching the real treat, that's the top bar. Depending on their height, kids will be transferring their weight to the top bar from different levels of the ladder. Pull-ups on the top bar work the back, shoulders, and abdominal muscles. Aside from these physical benefits, kids will also develop balance and coordination in the process. They can hit as many pull-ups as they want with peace of mind that the ladder is there for support whenever they get tired or feel like losing grip. And since the ladder is dual-sided, multiple kids can mount the structure at once. Things are also all good from the quality point of view. The entire Pull Up Climbing Ladder is made from commercial-grade steel that's sturdy and rust-resistant.

Product Specifications

Price: \$1,332.⁰⁰

Model Number: PGC011

Age Range: 5-12 years

Child Capacity: 2-4

Fall Height: 84"

Product Type: Kids Gym

Safety Zone: 13' 7" x 17' 4"
