

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

The Over Under Agility Course lets young athletes jump, duck, and sprint and build their strength, agility, and coordination in the process. Adding this kind of equipment means you're ready for the latest fitness trends and competitions. It gives kids the skills they're going to use on the field, in the gym, or even just racing their friends. The course itself is made up of multiple sturdy poles that can be set up however you like. But make sure you arrange them with even spacing between the poles so kids can hit their stride without colliding. All the poles are made from commercial-grade steel, known for its long-lasting lifespan. It can handle years of rough play and weather conditions without flinching a single bit. The powder coating finish of the poles protects them against rusting and other damages that may come with weather or heavy use. This means the Over Under Agility Course will retain its new look for a long period of time.

Product Specifications

Price: \$1,462.⁰⁰

Model Number: PGC016

Age Range: 5-12 years

Child Capacity: 1-4

Fall Height: 36"

Product Type: Kids Gym

Safety Zone: 16' 0" x 30' 2"
