

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

### Product Description

The Quadruple Balance Step Circle Station helps users, especially active aging people, work on their balance and stay active. They just need to grab onto the center ring for stability and step over the low hurdles one by one. While this may sound like a simple movement, it does wonders for their depth perception, flexibility, and joint mobility. The station provides a safe space to build coordination without fear of falls. Even young users prone to tripping can use the station to improve their walk. The Quadruple Balance Step Circle Station is made to last through rain, sun, and whatever else mother nature throws at it, thanks to the high-quality metal construction. Its powder-coated finish keeps it looking fresh, shiny, and rust-free, season after season. The bolts on the four beams firmly hold them together with the ground. They won't become loose no matter how many users stumble in their first tries.

### Product Specifications

**Price:** \$1,804.<sup>00</sup>

**Model Number:** PFT109

**Age Range:** 13 years +

**Unit Size:** 3' x 1' 6"
