

Product Description

Hop aboard the Royal Double Station Country Skier and tone muscles as users slalom through a public park, high school or college campus in the height of summer or to stay warm in winter. This piece of outdoor gym equipment helps to boost cardiovascular fitness as both the arms and legs are given a workout as well as strengthening the core as the user glides back and forth. The Royal Double Station Country Skier lets users move their legs in a way that is not common to usual walking or running movements as sliding back and forth will really help to develop the quadriceps. Whether they're practicing for the slopes or just want to give their body a good workout, the solid steel frame provides the perfect opportunity for year-round exercise outdoors thanks to the powder coating. What makes this piece of outdoor equipment even more appealing is the fact it can be used by two people at the same time separated by the central information panel.

Product Specifications

Price: \$4,206.⁰⁰

Model Number: PFT027

Age Range: 13 years +

Muscle Group: Cardio

Product Type: Fitness Royal

Unit Size: 2' 10" x 11'
