### Product Description

There's nothing more relaxing than sitting on a bench to enjoy lunch, read a book, or simply do some people watching in a public location. With the Diamond Pattern Traditional Rectangular Bench with Back you can install it anywhere you like in a number of ways. If you want to add the bench to a table without seating, choose the portable option so it can be moved around easily. However, if you need the bench to be fixed in place, you can cement it into the ground or bolt it down onto a smooth base of pre-prepared cement. This Diamond Pattern Traditional Rectangular Bench with Back can be ordered in multiple sizes to suit your space including 4ft, 6ft, 8ft, 10ft and 15ft options. What's more, you can select from numerous color options to suit the location. The diamond pattern on the back support and the bench, coupled with the tough thermoplastic coating, makes it fully resistant to rain as it just runs straight through to the ground below. Even if it's been raining, people can sit down without worrying about getting wet.
