

### Product Description

Wherever you decide to place the Diamond Pattern Rolled Edge Bench without Back, people will appreciate a place to sit down on a comfy bench with specialized rolled edges so it's more comfortable on the back of the legs. As the bench doesn't have a back, it can easily be located alongside a path where people can choose to sit either way round. The Diamond Pattern Rolled Edge Bench without Back makes a good addition to forest trails and public spaces where you need something contemporary that doesn't intrude on the surroundings of the space. This bench comes in a thermoplastic coating that protects it from rain, scratches, stains, scuffs, and doesn't allow the build up of dirt and grime. Choose from a Standard coating or opt for an Extreme coating that repels graffiti and cuts, and comes with an extended warranty. Affix the bench to the floor with a metal plate, cement it into the ground, or opt for a portable bench in either a 4ft or 6ft size.
