

# Diamond Pattern Double Pedestal Bench

**\$1,331.<sup>00</sup>**

## Product Description

Need more seating without crowding your space? The Diamond Pattern Double Pedestal Bench has got your back, literally, on both sides! This clever setup gives you double the seating while using way less space. It's a win-win, more seats, less clutter, and you'll be saving a bit of cash too. The double-sided design also has some exclusive use cases. Whether your guests want to take in the scenery from one side or chat with someone on the other, this bench keeps everyone happy. And don't think for a second that two benches on one platform means a compromise on comfort. The sturdy square posts holding it all together are built tough and can handle both benches being fully occupied without breaking a sweat. And since these posts are available in different shapes, they can either be bolted down securely or installed directly into the ground for a more long-term solution. Don't worry about feeling cramped either. There's plenty of space between the two sides, so folks can lean back comfortably without banging their heads.
