

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

This 6 Ft. Expanded Steel Bench boasts a distinctive design that combines style and comfort. The intricate net pattern on the seat and backrest make it attractive, while the rounded edges ensure no one accidentally gets hurt. The smart design also incorporates a generous gap between the seat and backrest for airflow and to keep the bench cool and inviting. The angle between the seat and back also contours to the user's body and allows them to relax for as long as they wish. And thanks to the in ground mount, the bench can be securely bolted to provide a permanent seating solution. But if you prefer the freedom to rearrange things, just leave it as a portable option. The netting pattern of the bench also protects it from rusting by draining off the water as soon as the rain ends. This also means the bench will always be ready to use. The 6 Ft. Expanded Steel Bench comes in two colors, Black and Dark Green, so choose what best compliments your setup.
