

## Octagon Portable Picnic Table with Perforated Steel

**\$1,686.<sup>00</sup>**

### Product Description

With a stylish octagonal shape featuring cut corners for easier access to the benches, the Octagon Portable Picnic Table with Perforated Steel is the perfect addition to any playground that needs lots of seating. Adults and children can use the picnic table whether they're sitting down to enjoy a picnic or communal BBQ, eating their cafeteria lunch outdoors, or simply having an outdoor lesson when the weather is nice. The thermoplastic coating on the Octagon Portable Picnic Table with Perforated Steel prevents rust from forming on the metal underneath, is resilient to the daily wear and tear on the surface from lunch trays, and also makes the structure resistant to the worst weathers. The picnic table can be moved around and placed wherever you like, and the range of different colors provides the opportunity to style it however you see fit. One or two of the bench seats can be removed when ordered to make space for a wheelchair user if required.
