

## Octagon Rolled Edge Portable Picnic Table with Diamond Pattern

**\$1,487.<sup>00</sup>**

### Product Description

The Octagon Rolled Edge Portable Picnic Table with Diamond Pattern features bench seats that have been rolled round instead of having a flat edge so that the backs of the legs are more supported and comfortable. It's easy to set up and requires very little maintenance to keep it looking in top shape all year round. The diamond pattern on the surface allows rain to splash straight through, and the thermoplastic coating protects the metal construction from contact with water or moisture which could cause rust. There are so many uses for the Octagon Rolled Edge Portable Picnic Table with Diamond Pattern whether in a public setting like a park or a cafe, or in a school yard. Kids can gather at the table during recess to socialize, eat their lunch, or even do school work. If you want to make the table wheelchair accessible, you can opt for an ADA version which removes either one or two of the bench seats which allow a wheelchair user to pull up and use the table.
