

## Octagon Rolled Edge Portable Picnic Table with Perforated Steel

**\$1,954.<sup>00</sup>**

### Product Description

Available in a wide choice of colors in both a Standard or Extreme coating finish, the Octagon Rolled Edge Portable Picnic Table with Perforated Steel can be designed to cater to your exact requirements. If you want to make the table ADA compliant for wheelchair users, simply request the option to have three bench seats and one wheelchair space, or two benches opposite each other and the two side spaces for wheelchair users. The sturdy construction can support multiple users at the same time and even though the Octagon Rolled Edge Portable Picnic Table with Perforated Steel is light enough to be moved around into different positions, it's still heavy enough to prevent tipping in all situations. It can be used for either eating or leisure purposes, making it multifunctional enough to be used in a school playground, a shared public space, a public park, or even seating for an outdoor eatery as it has a commercial-grade construction. Highly weather resistant against UV rays as well as rain and snow.
