

Rectangular Double Pedestal Picnic Table with Diamond Pattern

\$2,158.⁰⁰

Product Description

When you choose to add the Rectangular Double Pedestal Picnic Table with Diamond Pattern to your space you can opt for an in-ground installation that requires it to be set in concrete for extra stability, or you can choose a surface installation which comes with a plate to be bolted onto a concrete base. You can opt for a standard 6ft length table which seats up to eight people, or an 8ft table which fits approximately five people on each side. If you want to make it ADA compliant so a wheelchair user can pull up underneath it, then choose an overhang on one or both ends. Once installed, the Rectangular Double Pedestal Picnic Table with Diamond Pattern is strong and stable, allowing multiple people to enjoy it for a wide range of activities such as eating, socializing, doing school work on, laying out food for a BBQ or picnic, and even for outdoor learning activities. The diamond pattern on the table is covered in a thermoplastic which makes it easy to clean but also provides a smooth surface.
