

Octagon Rolled Edge Single Pedestal Picnic Table with Diamond Pattern

\$1,941.⁰⁰

Product Description

When you need to create a contemporary and comfortable area to sit for kids or adults, the Octagon Rolled Edge Single Pedestal Picnic Table with Diamond Pattern is a super choice as it can support eight individuals at the same time. If you want to make it ADA compliant, then you can swap out one or two of the seats so that there's space for a wheelchair to fit underneath and use the table. The plastic coating that covers the table and seats provides a range of benefits, from making the Octagon Rolled Edge Single Pedestal Picnic Table with Diamond Pattern waterproof and impervious to moisture, to preventing it from damage such as scratches and graffiti. The curved rolled edge makes the seating area smooth on the back of the legs so it's possible to sit on the bench comfortably for many hours if needed. It can be used in a public space so families and groups can use it to enjoy a picnic or BBQ in the park, or for use in schools as a place to conduct outdoor lessons or extend the cafeteria seating outside.
