

## Rectangular Nexus Pedestal Table with Perforated Steel

**\$2,392.<sup>00</sup>**

### Product Description

The Rectangular Nexus Pedestal Table with Perforated Steel invites everyone to relax, enjoy, and share good times. This beast of a table measures a generous 8 feet in length, which is ample space for family picnics, barbeques, or community events. Its clever seating arrangement boasts four separate seats, one for each corner. With individual benches, it is easier for people to get up and down without disturbing those around them. The four-bench setup also means that multiple stranger groups can sit and enjoy their time simultaneously. Both the table and benches have a perforated steel surface which adds to its charm. But beyond that, the holes help to keep the tabletop and seat dry by allowing water to drain quickly after a rain shower. And rest easy, the holes are made small enough to prevent small items from slipping through and ending up on the ground. You can also choose between a surface mount or an in-ground mount, depending on where you plan to set up the Rectangular Nexus Pedestal Table with Perforated Steel.
