

Octagon Rolled Nexus Pedestal Table with Perforated Steel

\$2,185.⁰⁰

Product Description

The Octagon Rolled Nexus Pedestal Table with Perforated Steel offers both comfort and style. It comes with rounded bench seats without any sharp edges. This way, it's safe for folks bringing kids to the park. The rolled edges cradle legs and keep visitors relaxed. Every bench stands alone so guests can move freely. Due to its spacious legroom, everyone can enjoy their meals or conversations without feeling cramped. Since there is no backrest, guests can easily turn around to attend to their kids and continue their activity at the table afterward. The Octagon Rolled Nexus Pedestal Table with Perforated Steel is also very durable. It can bear any weather condition without any wear and tear for years. The protective coating on the table is the reason why it always looks pristine. This coating will protect it from rust and corrosion. It also comes in different colors so that you can choose the one that fits your area's theme or vibe.
