Product Description —

Cypress Preserve has unique interactive elements for kids of different ages. Apart from building their strength through climbers like Chimney Funnel and Ribben Climber, it also has multiple activity panels to appeal to their imagination. There are Swingings Rings that will help children try out their newly acquired acrobatic skills. There's also a curvy slide for those youngsters who like excitement in their playtime. The Chimney Funnel Climber is a unique challenge to explorers who dare creep into the tunnels of Cypress Preserve. There are Chin-up Bars and a Pebble Climber with Rails for more activity-driven kids. A Lookout Step adds much mystery to what more secrets Cypress Preserve hides in its depths. Also, the play structure's design incorporates wheelchair-accessible pathways. So, kids of all abilities can easily explore the different activities lurking around the Preserve. Multiple decks of the structure will cater to kids with different interests, never letting a bored young mind out of its belly.
