Product Description —

Many of the outdoor playgrounds we supply already have Transfer Stations built in for less abled children, but the Mount Rainer playset goes above and beyond with an entire ADA Ramp platform section which is wheelchair and mobility aid accessible. Along the length of the decking ramp there is a Metal Barrier with Ship's Wheel for pirate adventures, a Gear Panel to inspire creativity and educate, plus a Bubble Panel to look out of. Children can opt to use the Wave Slide or Double Slide to get down, and the Pebble Climbers, Sea Creature Climber and Carrot Climber to get up again. Around the edge of the structure there are numerous fun activities which are also wheelchair accessible including Bongos, a Single Drum and Double Drum for music making. There's also a Balance Beam to one side as well as a Bench Climber and Store Panel for creative play.
