# Product Description —

Adventure, inclusion, and imagination all come alive in the Wysteria Wilds playground system. Designed for children of all abilities, this large-scale commercial playground invites every child to climb, slide, and explore together. Its fully ADA-accessible ramp system connects multiple play zones, ensuring everyone can join in the fun—whether racing down dual slides, navigating the tunnel crawl, or discovering the sensory play panels along the way.

Wysteria Wilds is built with durable, powder-coated steel and high-density polyethylene components that stand strong against weather and wear. Children will love the bright color palette, while caregivers appreciate the safe guardrails, inclusive access points, and open sightlines that make supervision simple.

From physical coordination to imaginative roleplay, Wysteria Wilds supports every stage of childhood development. Ideal for schools, parks, and community centers, it's a statement piece that promotes unity, accessibility, and outdoor fun for all.
